Microbiome Requests, Microbiome Services and Sample collection

Any User may submit a Microbiome Request. Upon receiving a Microbiome Request (as well as any additional consents We may require before We provide any Microbiome Services) and payment of the relevant Fees, We will send to You a Microba

Sample Kit. Microba Sample Kits are subject to availability. We will not be liable for any delay in providing You with a Microba Sample Kit. Certain Microbiome Services may require more than one Sample over a period of time. We may decline to send a Microba Sample Kit for any reason upon receiving a Microbiome Request. If We do decline to send a Microba Sample Kit, We will refund payment of any relevant Fee.

You must collect, package and send the Sample to Us within 12 months of Us sending you a Microba Sample Kit. We will only accept Samples that have been sent to Us using the prescribed Microba Sample Kit and otherwise collected and packaged in accordance with Our instructions to You as set out in the Microba Sample Kit. Certain Microbiome Services may require more than one Sample over a period of time.

If you fail to provide us with a Sample within 12 months of Us sending you a Microba Sample Kit then you agree that We are not obliged to accept any Sample from You and that We shall not be liable to refund payment of any relevant Fee.

If You are a Participant in a Research Project, We may direct You to send Your Sample to Our Research Partner with respect to that Research Project. You agree and consent to Our Research Partner collecting, holding and disclosing Your Sample to Us in connection with the Research Project.

We are not obliged to provide You with a refund or replacement if You damage, misuse or misplace a Microba Sample Kit (for example, if You fail to follow Our instructions for Sample collection). If You require a replacement Microba Sample Kit due to damage, misuse or misplacement, We may charge You a replacement fee.

All Samples will be at Your risk until they are received by Us. We are not liable for any Samples damaged in the sampling process or lost or damaged in transit. In such circumstances, We in our absolute discretion may choose to either provide You with a new Microba Sample Kit for free or We may charge You a replacement fee (as determined by Us).

We will label each Microba Sample Kit with the details of the User that has submitted the Microbiome Request and is required to provide the Sample. You warrant that any Sample You send to Us or Our Research Partners contains only materials from that User's body and You irrevocably consent to Us carrying out Microbiome Services on that Sample. Where You have submitted a Microbiome Request for or on behalf of another person, You warrant and represent to Us that that person consents to Us carrying out Microbiome Services on that Sample and has read and understood these Terms.

It is acknowledged that Microba Life Sciences Limited ABN 30 628 603 225 is the entity within Our group that will provide the Microbiome Services.

We will carry out the Microbiome Services using reasonable care and skill, however We make no guarantee that We will be able to successfully perform the Microbiome Services on Your Sample (for example, if Your Sample does not contain sufficient biological material or the results from our Services do not meet our standards for accuracy). If We determine in our absolute discretion that the Microbiome Services cannot be accurately and safely carried out on the Sample provided by You (Failed Sample), We will notify You and may request that You submit another Sample. In the event of a Failed Sample, We in our absolute discretion may choose to either provide you with a new Microba Sample Kit for free or We may charge you a replacement fee (as determined by Us).

We retain the right to make any changes to the Microbiome Services which are necessary to comply with any applicable law or safety requirement, or which do not materially affect the nature or quality of the Microbiome Services.

You acknowledge that we will not return any Sample to You. We may destroy, dispose and/or retain any Samples as we see fit

depending on the nature of the issue and the type of Sample.

Unless You are a Participant in a Research Project, We will provide You with Your Microbiome Report as part of the Microbiome Services. If You are a Participant in a Research Project, You acknowledge that You will not receive the Microbiome Report with respect to Your Sample unless We or the relevant Research Partner has agreed otherwise. In any event, You agree that We may provide You with Your Microbiome Report online (in which case, You may access Your Microbiome Report by logging into Your account). We may agree to provide a hard-copy of Your Microbiome Report upon request, which may be subject to additional Fees.

Referral Codes

We may enter referral arrangements with certain third parties that provide health-related services to their patients or clients (Insights Practitioners). Under these arrangements, the Insights Practitioner may be given a unique referral code ("Referral Code"), which the Insights Practitioner can then provide to their patients or clients for their use in connection with the purchase of certain Microbiome Services.

You are not obliged to use a Referral Code to purchase Microbiome Services. If You have been provided with a Referral Code and You decide to use it in connection with the purchase of any Microbiome Services, You acknowledge, consent, and agree that:

- We may disclose a copy of the Microbiome Report We produce with respect to those Microbiome Services to the Insights Practitioner associated with that Referral Code and any of their associates or contractors that might be involved in providing health-related services to You (each, a "Healthcare Provider");
- We may disclose the Microbiome Report to the relevant Healthcare Provider via email, or otherwise allow them to view the Microbiome Report online; and
- We may hold a copy of the Microbiome Report, and We and Our personnel may hold, access and use the Microbiome Report, for the purposes of facilitating the delivery of the Microbiome Report to the relevant Healthcare Provider and assisting them to interpret the Microbiome Report.

You may withdraw this consent at any time by emailing Us at: info@microba.com.

While We endeavour to verify that Insights Practitioners (and any other person to whom We disclose Your Microbiome Report in accordance with this clause) are current registered health practitioners, You acknowledge that We do not, and are not obliged to, conduct background checks on Insights Practitioners (or any other person to whom We disclose Your Microbiome Report in accordance with this clause) or otherwise verify the information that they may provide.

Our recognition of a person as an Insights Practitioner in no way implies Our endorsement of that person, and should not be considered advice or a recommendation to engage in any relationship with that person (whether for health-related services or otherwise).

You agree that We are not responsible or liable for (and You release Us from) any damages or loss that may arise from:

- Your Microbiome Report being used or disclosed to a Healthcare Provider in accordance with this clause (Referral Codes);
- any act or omission by any Healthcare Provider (including with respect to the use, storage or disclosure of Your Microbiome Report or any other personal information); or
- any interaction You may have with any Healthcare Provider.

You may request that We delete Your personal information that We hold about You by sending Us an email at info@microba.com. Upon receiving this request, We will provide you with a form which must be signed and returned to Us so that we may process the request. You agree that any such request will only be effective from the point in time that We process Your request. You acknowledge that if We delete any of Your personal information then We may not be able to provide You with some or all of Our service.

Aggregated information

You agree and consent that:

- to the extent it is permitted or required by law; or

You acknowledge and agree that, to the extent permitted by law, the Research Data will be owned by Us. To the extent that title to any Research Data does not or cannot vest in, or be assigned to, Us, You grant to Us a perpetual, irrevocable, world-wide, non-exclusive, royalty free and fee-free licence (with a right to sub-licence and assign) to use that Research Data for the purposes set out in the applicable Participant Information Sheet and any other purposes that We see fit. You acknowledge that Our use of any Research Data may be subject to any agreement We may have with Our Research Partners.

You acknowledge that You will not acquire any rights in any works or research or commercial products that may be discovered, developed or derived by Us or Our licensees from any Research Data. All such rights are owned by Us or Our licensees (as the case may be).
